

Room booking applications

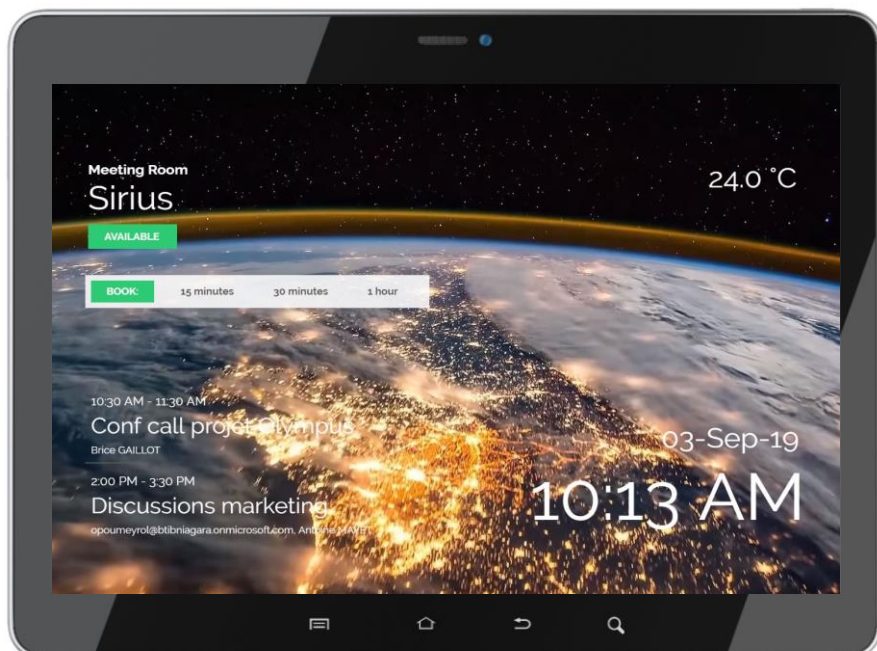

Improve the management of your meeting rooms

Managing efficiently meeting rooms is a major problematic for a facility manager. Rooms are always busy while half of them contain no one. Occupants are seeking for a better availability and therefore it's becoming essential to propose them better collaborative tools.

A lot of benefits

Linksper™ allows you to connect your booking room application with all the comfort and occupancy equipment, independent from the devices brand and with lot of benefits:

- Stop losing time looking for an available room
- Book instantly a room from a local interface
- In case of unoccupancy, benefit from rooms being free automatically
- Monitor the space utilization
- Synchronize with any booking application or Calendar solutions

Linksper™ connectors already available
